Ella's Bubbles is a Chicago-based OEM manufacturer of acrylic walk in tubs and national distributor of showers and bathroom fixtures.

Ella's mission is simple – to offer only the best walk-in bathtubs in terms of safety, design, and therapeutic features, at an exceptional price. Offering friendly, personalized customer support from specialists in our Chicago office, Ella's provides expert advice and effective solutions to ensure the best customer experience possible. The satisfaction of our customers is, and always will be our top priority. Ella acrylic walk in tubs help transform your bathroom into a luxurious, safe place to retreat to each day as part of a healthy lifestyle.

Ella walk in tubs & accessible showers are designed for everyone who needs an easy and safe way to rejuvenate and bathe in the comfort of their own home. Most importantly Ella walk in bathtubs & accessible Showers offer a way for you to stay independent longer regardless of any mobility issues that arise.

Ella's Bubbles offers acrylic walk in bathtubs. The acrylic bathtubs are formed from a solid sheet of material resulting in a brilliant finish that is nonporous, impermeable to mold and mildew, long lasting, and easy to maintain.

The entire family of Ella products come with one of the BEST overall warranties in the industry. Please go to each product page and download the warranty certificate to view warranty information for a specific model.

Ella walk in bathtubs are loaded with features to ensure a safe, luxurious bathing experience for everyone. Our dual drain system, therapeutic air and hydro jets, O3 enhanced bidet air jets, LED chroma therapy lighting, water sterilization system and in-line water heater are combined to offer a more therapeutic bathing experience than a traditional bathtub.

About Our Product

All Ella brand walk-in tubs are assembled and jetted in Chicago using UL Certified parts from our close partners NuWhirl in California! Our exclusive features include as the removable stainless steel door, gravity driven dual drain technology, patented swivel tray, Infusion™ MicroBubble Therapy, independently operated therapeutic foot massage, and much more! All of our exclusive features offer extra comfort, safety, convenience, and elegance to our customers.

Jetted and Assembled in Chicago

All of our tubs are jetted, assembled and tested to perfection in Chicago.

UL Certified parts

We use UL Certified parts from our close partners in California.

Limited Lifetime Warranty for Shell, Frame, Door

You are in good hands and can feel confident with one of the best warranties in the industry.

About Materials

Ella's Bubbles offers Acrylic and Gel Coat Walk in Bathtubs, it is important to understand the differences when selecting which one is right for you. Both bathtubs are made with fiberglass reinforcement, however the main difference is found in the surface. The Acrylic bathtubs are formed from a solid sheet of material resulting in a brilliant finish that is nonporous, impermeable to mold and mildew, long lasting, and easy to maintain. Gel Coat bathtubs are formed with fiberglass and plywood backing that provides the versatility to make durable, long lasting walk in bathtubs in a variety of sizes and applications that cannot be achieved with Acrylic material. Only the finest Marine Grade materials are used. Together both materials provide many luxurious options for bathrooms and bathers of all shapes and sizes.

Dual Drain Technology

For added security and exiting efficiency, Ella acrylic walk in tubs feature two 2 inch drains vs the industry standard 1.5 inch single drain. No need to wait long, the gravity driven (DDT) allows the tub to drain in approximate 80 to 120 seconds depending on water volume, bather's body size, and house drain conditions.

Stainless Steel Door & Frosted Tempered Glass

Ella acrylic walk in tubs include a removable stainless steel door With tempered glass. The stainless steel door adds a sleek look and makes your bathtub easier to clean. With its detachable feature, hard to reach places have never been easier to access.

U Shape Door 3-Latch Outward Swing Door

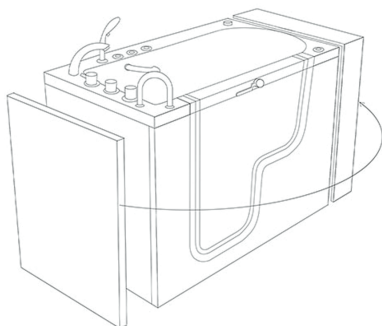

Ella outward swing U shape door consists of industrial grade durable plastic composite material and decorative tempered glass screen front cover. The unique gear and shaft 3 latch door lock mechanism allows for equal pressure to the door gasket throughout its entirety and guarantees a leakproof door seal.

L-Shaped 2-Latch Outward Swing Door

Ella aluminum L shape outward swing doors are made with a 2-latch gear and shaft lock mechanism which allows for equal pressure to the door gasket throughout its entirety and guarantees a leakproof door seal. The L shape door opening allows for toilet clearance up to 21" height and convenient transfer from the wheelchair into the seat over the soft and warm to touch acrylic shell.

Access Panels, Reversible End Panel, and a Wall Extension Kit

Ella acrylic walk in tubs include front access panels, one reversible end panel, and a wall extension kit to fit our tubs into a standard 60" opening for tubs shorter than 60". The end access panel covering the faucet side can be retrofitted to the opposite side of the tub. Additional end panels can be ordered if needed.

Low Step-In Threshold

The Ella walk-in tubs are preset as default for above the floor drain installation on a concrete floor or in basement applications however the adjustable legs of the frame allow for lowering the threshold and easier step in. Ella's Bubbles acrylic WIB floor is textured to assure a better grip for your feet and slip protection.

Wall & Deck Mount Grab Bars

The grab bars are important safety features offered on every Ella walk-in tub where the space allows to install them. There are regular wall mount or U shape deck mount grab bars made of durable stainless steel in chrome finish available on Ella walk-in baths.

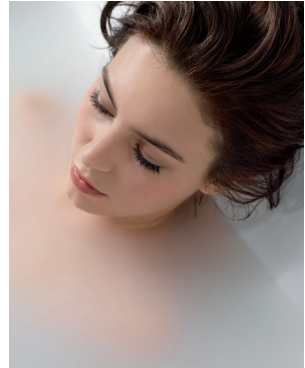

Patented 360° Swivel Tray

Ella acrylic walk in bathtubs include a patented 360° swivel tray. Whether it be a book or beverage, you no longer have to worry about where to put the items that aid in your relaxation. The patented 360° swivel tray adds a touch of additional convenience to complete any spa bath experience. Available on Elite, Petite, Royal and Ultimate.

Infusion™ Microbubble Therapy

Ella's Bubbles introduces the breakthrough Infusion™ Microbubble Therapy. Now, you can experience the revolutionary soothing, softening benefits of Microbubbles in your new or existing standard home bathtub. Microbubble Therapy is available on any of the Ella walk-in bathtubs.

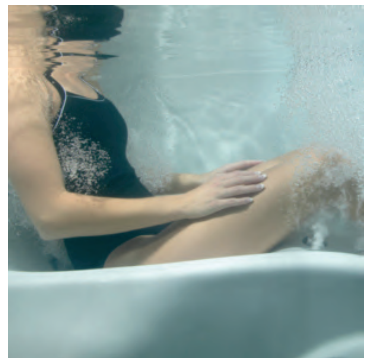

Hydro Massage Therapy

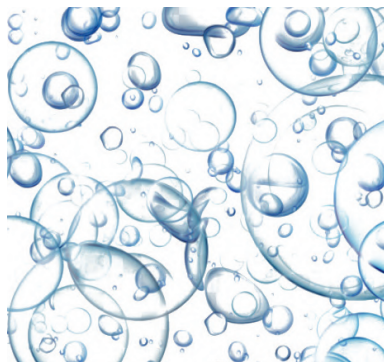

Ella acrylic walk in tubs can include hydro massage jetting depending on the options you choose. Hydro massage jets are a great solution for those looking for a high pressurized massage. Additionally our hydro massage includes an intensity dial to control the water pressure to suit your needs.

Air Massage Therapy

Ella acrylic walk in tubs can include air massage jetting depending on the options you choose. Air massage jets are a great solution for those looking for a more gentler massage. Our air massage therapy system includes a 3 speed control with pulse setting and auto-purge for keeping the air system free of water and mildew build ups.

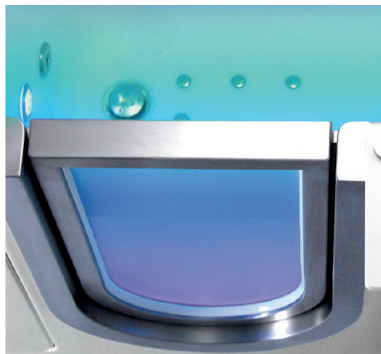

Ozone Sterilization

Ozone is a naturally occurring oxidative that is widely known as a cleaning agent in de-polluting municipal water systems across the country. Ozone Sterilization turns on automatically as soon as the hydro pump is turned on along with the in-line water heater. It then activates and goes through a process called "cellular lyses", eliminating mold and bacteria within your tub.

LED Chromatherapy Light

Don't be left in the dark! Bring an extra dimension to your Ella Walk In Tub experience with LED Chromatherapy lights. Chromatherapy Features: Multi-color LED light therapy, LEDs cycle through one another to change the color of the water and create a relaxing & harmonious experience. Option to pause on color of choice.

Heated Seat and Backrest

NuWhirl is a surface heating system for Ella acrylic walk in tubs and low threshold shower enclosures. The system activates in minutes, keeping users warm and relaxed from the moment they enter the tub. These surface heaters are safe and easy to operate. Controlled through a simple software interface, each control module accommodates multiple heaters.

Aromatherapy

Fill the air with calming scents and eradicate your stress, anxiety and depression to bring you one step closer to clarity of mind. Just push the button and our Aromatherapy system will add a little drop of essential oil into the tub full of water. With aromatherapy and chromatherapy combined you get the same rejuvenating effects without the hassle!

Vibro-Sonic Back Massager

Vibrating back massagers are available for most Ella walk in tubs. The back massagers allow for a relaxing back massage without use of water. We recommend pairing with our independent foot massage.

Bluetooth Speakers

Enjoy your relaxing Ella tub with built in bluetooth speakers. Easily connect your phone with clear high quality sound and control your music with a built in digital controller.

STAINLESS STEEL & GLASS DOOR
WALK-IN TUBS

Elite

30W x 52L

Introducing the flagship Elite, our most popular walk in tub sporting a sleek look. Designed with your comfort in mind, you'll be able to relax in a 2" wider seat than the Petite and Deluxe models. The Ella Elite model comes with a removable swivel tray with a patented design.

- Common size 30" wide and 52" long white gloss finish acrylic walk in tub for average body type
- 21.75" wide and 15" high seat for deeper soak (ask for 2" soft seat risers if you need a higher seat)
- Includes reversible end panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Deck and wall mount grab bars, textured floor, comfort white rubber backrest
- Perfected design like arched elbow room for bather, maximum seat width for 30" wide tub, and strategically positioned jetting for maximum therapeutic relief
- Patented removable 360 degree swivel tray

TECHNOLOGY

Royal 32W x 52L

Make way for the generously sized, yet stylish Royal walk-in bath-tub, an expanded size fit for anyone who loves regal relaxation. The Royal can accommodate larger body types due to its ample design, seat, and backrest.

- Wider 32" white gloss finish acrylic walk in tub for larger body type bathers
- 23.75" wide and 15" high seat for deeper soak (ask for 2" comfort seat risers)
- Includes reversible end panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Removable custom design stainless steel & tempered glass door
- Deck and wall mount grab bars, textured floor, comfort backrest
- Perfected design like arched elbow room for bather, maximum seat width for 32" wide tub, and strategically positioned jetting for maximum therapeutic relief
- Patented removable 360 degree swivel tray

**DUAL

TECHNOLOGY

Petite

28W x 52L

With a new design and smart engineering, the Petite walk in tub offers a stylish, practical solution in smaller homes and bathrooms. Boasting as much seat room as the Deluxe walk in tub, this model has a 2" narrower body to save space in your home.

- Narrower 28" wide white gloss finish acrylic walk in tub for the average body type bathers
- 19.75" wide and 15" high seat for deeper soak (ask for 2" seat risers)
- Includes reversible end panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Removable stainless steel & tempered glass door
- Deck and wall mount grab bars, textured floor
- Patented removable 360 degree swivel tray

**DUAL
DRAIN**
TECHNOLOGY

Ultimate 30W x 60L

Look to the Ultimate walk in tub for a fully loaded, roomy model with an independent foot massage. This allows you to enjoy a convenient foot massage without waiting for the whole walk-in bathtub to fill. Or, you can indulge in a full bath using the air, hydro, and foot massagers simultaneously.

- Independently operated foot massage with separate hydro pump for stronger foot massage pressure. Fill up the water only to seat level to conveniently enjoy the foot massage in few minutes
- Standard size 30" wide by 60" long white gloss finish acrylic walk in tub for the average body type bather with extra long leg room and longer seat for better support
- 21.5" wide and 15" high seat for deeper soak (ask for comfortable soft 2" seat risers)
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions

Deluxe

30W x 55L

Stretch out and give yourself more leg room in our pioneer model, the Deluxe walk-in bathtub. Measuring at 55" long, this walk-in tub is ideal for taller bathers. With an economical price point, the Deluxe walk-in bathtub is the clear choice for cost-conscious customers.

- Standard size 30" by 55" long (3" longer than Elite, Royal, Petite), white gloss finish acrylic walk in tub for the average body type bathers with extra leg room
- 19.5" wide and 15" high seat for deeper soak (ask for 2" seat risers)
- Includes reversible end panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Removable stainless steel & tempered glass door
- Improved design with added elbow room

Companion

30W x 60L

Foot Massage Jets

Bathing with your loved one is now possible with the Companion walk in tub. A two-seat version of our classic Deluxe walk in tub. This unique model features a centered outward swing door and center-facing seats.

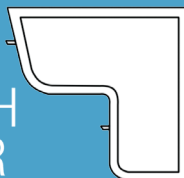

- The two seat 30" wide by 60" long white gloss finish acrylic walk in tub for the average or petite body type bathers with the door in the center
- 20.5" wide and 15" high seat for deeper soak (ask for 2" seat risers)
- Includes reversible end access panel for right or left corner installation
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Removable stainless steel & tempered glass door
- Deck mount grab bar, textured floor

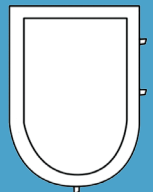

OUTWARD SWING DOOR WALK-IN TUBS

2
LATCH
DOOR

3
LATCH
DOOR

Malibu - Flat Design Zen - Wave Design

30W x 52L

The Malibu is our most popular outward swing door walk in tub and is made with common dimensions to suit the average-sized bather. The stylish outward swing door with a 3-latch door lock system and low threshold allow for an easy entrance and exit.

- Our Malibu walk in tub with a fresh new design!
- Standard size 30" wide and 52" long white gloss finish acrylic walk in tub for the average body type bathers with 17" high and 20.75" wide seat
- The most popular walk-in tub because of its common size fits most, also because of beautiful design and easy to open and close outward swing door allowing for easy access in and out of the tub
- Includes reversible end panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions

Big4Two

36W x 80L

Wash away stress in the Ella Big4Two, the largest two-seat walk-in tub available on the market. Boasting enough room to stretch your legs, you and your better half can experience a rejuvenating air, hydro, and foot massage bath whenever the mood strikes.

- The two seat acrylic walk in tub for the large body type bathers with the convenient centered outward swing door and two 17" high seats one 22" wide and the other 26" wide
- The extra hydro pump allows for the water to be filled only up to the seat height to enjoy the powerful foot and calf massage in minutes
- Includes reversible end access panel for right or left corner installation. Can be installed against the wall. The second end access panel is not included (must be ordered)
- Dual Drain Technology with approximate 2 to 3-minute drainage at ideal plumbing conditions
- PC and tempered glass door with easy open or close door handle, low step in threshold and textured floor
- Strategically positioned jetting for maximum therapeutic relief

Monaco- Flat Design Chi - Wave Design

32W x 52L

The Monaco is made with an extra-wide seat to accommodate larger body types or those who simply want a roomier tub interior. Like our other outward swing walk-in bathtubs, this stylish design can complement practically any bathroom.

- Our Monaco walk-in tub with a fresh new design!
- Roomier extra wide 32" and 52" long white gloss finish acrylic walk in tub for the larger body type bathers with 17" high and 22" wide seat
- This is most popular walk-in tub for larger size bathers not only because its common has 24" wide seat but also because of beautiful design and easy to open and close outward swing door allows for easy access into the tub
- Includes reversible end panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions

Tub4Two

32W x 60L

Make the most out of your space with the Ella Tub4Two, a 60" long, two-person walk-in tub that can easily replace most common standard size bathtubs. This walk-in tub provides a more compact bathing solution for couples.

- The two seat 32" wide by 60" long white gloss finish acrylic walk in tub for the average body type bathers with the convenient centered outward swing door and two 17" high and 19 1/4" wide seats
- Includes reversible end access panel for right or left corner installation. Can be installed against the wall the second end access panel is not included (must be ordered)
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- PC and tempered glass door with easy open or close door handle, low step in threshold and textured floor
- Strategically positioned jetting for maximum therapy

Front Entry

32W x 40L

The Ella front entry walk in tub is a slimmer sized outward swing walk in bath-tub. It's the perfect size for the averaged sized bather with a smaller bathroom; and has the option of multiple packages. The unique front entry walk in tub can fit in a narrow space a conventional tub or shower cannot!

- Compact size 32" wide and 40" long in white gloss finish
- The most popular compact front entry walk-in tub because of its slimmer size fits most Bathrooms
- Also because of beautiful design plus easy to open and close outward swing door allowing for easy access in and out of the tub
- Single 2" Drain with emergency pull-up chain for fast and reliable drainage
- Strategically positioned jets for maximum therapy and enjoyment

Mobile

26W x 45L

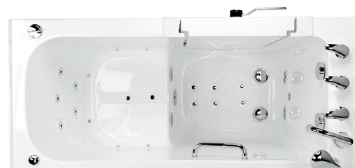

Make the most out of your space with the Ella Mobile, a 45" long, walk in tub that can easily replace most common standard size bathtubs. This walk in tub provides a more compact bathing solution for smaller bathrooms.

- Slimmer size 26" wide and 45" long in white gloss finish
- The most popular walk-in tub because of its slimmer size fits most bathrooms
- Also because of beautiful design and easy to open and close outward swing door allowing for easy access in and out of the tub
- Single Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Deck and wall mount grab bars and textured floor
- Strategically positioned jetting for maximum therapy and enjoyment

Lounger

27W x 59L

Taller bathers can kick back with the additional legroom and hamstring support in this Lounger Walk-In Bathtub. Engineered to save space with a 27" narrow width body, the Lounger doesn't sacrifice your comfort with its 19.5" wide seat.

- The narrow space saving exterior size of 27" and at a length of 60" the Lounger has become the favorite amongst average size bathers because of the comfort of the standard 19.5" seat and extra long leg room
- Includes reversible end access panel and extension panel for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- Wall mount grab bar and textured floor are great safety features
- The strategically positioned jetting for maximum therapy and enjoyment

Transfer26

26W x 52L

The Ella Transfer26 Wheelchair Accessible Tub is designed for bathers who use a wheelchair or for those who simply need an easy-to-enter tub and a smaller width to fit in smaller bathrooms. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub.

- Slim Transfer26 is 26" and 52" long white gloss finish acrylic walk in tub built for smaller bathrooms and equipped with exposed L shape door for slide in access in to very spacious 20" wide and 17" high seat. L-shape form allows for passing over the toilet (check specifications)
- Includes reversible end panel and extension panel filler for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- The door is designed without the door frame which allows for lower step in threshold and smooth acrylic slide in surface for bather not to catch the cold metal frame or sharp edges

Transfer 30W x 52L

The Ella Transfer Wheelchair Accessible Tub is designed for bathers who use a wheelchair or for those who simply need an easy-to-enter bathtub. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub.

- A Standard size 30" wide and 52" long white gloss finish acrylic walk in tub for the average body type bathers equipped with exposed L-shape door for slide in access in to very spacious 23" wide and 17" high seat. L-shape form allows for passing over the toilet (check specifications)
- Includes reversible end panel and extension panel for 60" opening

- Largest extra wide 36" and 55" long white gloss finish acrylic wheelchair accessible walk in tub for the average body type bathers equipped with exposed L shape door for slide in access in to very spacious 30" wide and 17" high seat. L-shape form allows for passing over the toilet (check specifications)
- Includes reversible end panel and extension panel filler for 60" opening
- Dual Drain Technology with approximate 80 second drainage at ideal plumbing conditions
- The door is designed without the door frame which allows for lower step in threshold and smooth acrylic slide in surface for bather not to catch the cold metal frame or sharp edges

Walk-In Tub Accessories

Our goal is to offer the best accessible bathroom products on the market. To enhance your bathing experience, we offer accessories to provide more comfort and convenience. These walk in tub accessories are designed to fit into most of our walk in tubs and showers.

Contemporary Fast Fill 3/4" Roman Faucet

The Huntington Brass 5 Piece Fast Fill Roman Faucet Set is perfect for walk in bathtubs or any other bathtub where fill time is important. The pull out multi-function hand shower can be used, while the bathtub fills, to stay warm. Fill time can vary for fast fill faucet based on home water pressure, bathtub and bather size.

Classic Bathtub 1/2" Roman Faucet

The Jandon 5pcs Traditional Roman Faucet Set With Hand-held Shower is an excellent option for fast fill times. Precise fill times will vary based on home water pressure and walk in bathtub and bather size. The pull out hand shower can be used to stay warm while bathtub is filling.

Huntington Brass 2 Piece Faucet

The Huntington Brass 2 Piece Fast Fill Roman Tub Faucet with pull out multi-function hand shower is perfect for your walk in bathtub or any bathtub where fill time matters. The fast fill 2 piece fills at a rate of 18 GPM (gallons per minute) based on in house plumbing conditions. If desired, the pull out hand shower can be used for shower while the bathtub is filled to stay warm.

Thermostatic Control Valve

In some areas the plumbing code requires bathtubs to have a thermostatic control valve in commercial applications like nursing homes, hospitals or for customer's with safety concerns. However the fill time is slower than in regular or fast fill roman faucets. Please consult with your reseller or call 800-480-6850.

Thermostatic Control Valve 5 Piece Faucet

Ella Acrylic Walk In Bathtubs include an Ella Standard 5 Piece Faucet Set. This set features a deck mounted thermostatic control valve, an anti-scald feature that keeps water at a consistent temperature, preventing water from suddenly becoming too hot.

Infusion™ Microbubble Therapy Universal Install Kit for Existing Tubs

Ella's Bubbles introduces the breakthrough Infusion™ Microbubble Therapy universal installation kit. Now, you can experience the revolutionary soothing, softening benefits of Microbubbles in your new or existing standard home bathtub.

Removable Headrest and Neck Support

The headrest can be mounted on the wall or on the deck. The included suction cups make for a fast placement so you can enjoy your bath even more without having to constantly adjust your headrest. This head/neck support pillow has suction cups and can be placed directly on your tiled wall or can be slid over the bracket attached to the extension panel of your walk-in tub, ordered separately.

Bathtub Seat Pillow and Riser Standard Shape

Perfect for home spas and walk in baths, this luxuriously thick bathtub pillow can be used as riser or additional seat support in all walk in bathtubs. The inner padding material is removable and washable

Bathtub Seat Pillow and Riser with Bidet Cutout

Perfect for home spas and walk in baths, this luxuriously thick pillow is incredibly comfortable. This bathtub seat pillow can be used as riser or additional seat support in all walk in bathtubs. The interior material is washable and can be removed. This model comes with a centered cutout for use with Ella Dual Massage Walk In Bathtubs.

4-Fold Walk-In Bathtub Screen

This is a brand new product just launched by Ella's Bubbles. It is a very convenient alternative to regular shower curtains. This is the best and most convenient screen option for wall-in tubs found anywhere.

SHOWER STALLS & KITS

SHOWER STALLS & KITS

All the Ella's Bubbles Accessible Shower Stalls are conveniently packaged of various pre-selected, unique fixtures. The Ella low threshold walk in showers stalls are great for any user in need of safer bathing. The shower stall walls are molded using a spray on acrylic finish called AcrylX, reinforced with wood and fiberglass, resulting in a rigid shower surround with easy-to-clean, smooth interior surface. The steel pipe reinforcement is used in the larger shower wall panels to withstand warping and achieve the precise wall & shower base fit. The finish features a stylish simulated tile pattern for the walls and an anti-slip texture for the shower base floor. Shower finishes are available in three color options (white, bone or biscuit) and also in a variety of fixture package options.

AcrylX

Using UL Certified Parts

We are proud to say, all Ella showers are made to order at our factory in Tennessee.

Limited Lifetime Warranty

You are in good hands and can feel confident with one of the best warranties in the business.

Check Out Our Customer Reviews at BBB.org

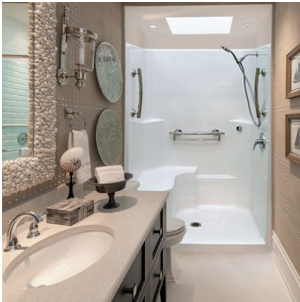

Read our reviews to see what our customers have to say about us.

Multi-piece Showers for Remodels

Twice the weight and twice the raw materials used in the construction of our showers than listed by any of our competitors. Wood reinforced core walls and high density base. Metal conduit around perimeter of EACH panel for added strength.

One-piece Showers for New Construction

The wood reinforced core walls allow the fixtures to be installed right onto the wall studs by eliminating the need for a drywall backing. Ideal for new construction projects.

European Style Tempered Glass Sliding Shower Doors

Renovate your bathroom with style; and accentuate your ceramic decor with the Ella tempered glass sliding doors. Tall and frameless, these 2-panel shower doors have a modern and silent roller system making it easy to open. The reversible door for left or right opening installation is a great feature for ease of installation.

Acrylic Alcove Bathtubs

With its distinct rectangular shape and white gloss finish Ella Alcove acrylic bathtubs will give a unique modern finish to any bathroom. Its roomy interior makes it comfortable to soak in deep dimensions allow the bather's body to be completely submerged. This easy to clean, lightweight acrylic construction is reinforced with fiberglass to ensure a durable finish that will not stain or fade. This tub also comes complete with a center drain plus waste and overflow and flexible drain hose.

Choose between Air jet massage or Infusion™ Microbubble Therapy options that will transform your bathroom into a personal spa. The modern freestanding faucet gives the finishing touch to the combo set. Please visit www.ellasbubbles.com for more information.

Acrylic Freestanding Bathtubs

Ella's elegant acrylic freestanding bathtubs will transform your bathroom into luxurious retreat. Its modern oval design with sleek curves and a white gloss finish completes the unique contemporary look or choose a modern rectangular shape. These acrylic tubs, lightweight yet durable, retain heat and keep you warm while you bathe. The supporting frame is equipped with adjustable leveling legs to ensure sturdy installation. The easy to clean lightweight acrylic construction is reinforced with fiberglass to ensure a durable finish that will not stain or fade.

Ella Laydown Walk-In Bathtub with Glass Screen

Occasionally, a customer needs a walk in tub with a more traditional style. The Ella Lay Down walk in bathtub has a lower 22 ¼" side-wall and a full 60" length, specifically designed with these customers in mind. This is great for parents and caregivers of children with special needs, as the low walls allow for closer interaction between bather and occupant. The Ella Lay Down walk in tub is also a great option for people who want to lay down while bathing but cannot lift their legs to get in and out of a traditional bathtub. Please visit us at www.ellasbubbles.com for more indepth information regarding our laydown specialty tubs.
