

# Infusion Microbubble Therapy Pet Spa

Therapeutic Bathing for Pets

---

ella

by ella's bubbles

**Ella's Infusion Microbubble Therapy Pet-Dog Spa** is vacuum formed from a solid, long-lasting acrylic sheet. Under the shell is a rust proof, stainless steel frame reinforced with multiple fiberglass mesh and gelcoat layers to ensure structural durability. The U-shape outward swing door, made from aluminum composite with stainless steel hinges, provides an easy entry and water tight seal.

## What is Infusion Microbubble Therapy?

Infusion Microbubble Therapy is the process of breaking down water into billions of oxygen rich bubbles to remove trapped dirt, bacteria, yeast, and even allergens. The soothing cloud of tiny bubbles can moisturize, soften, restore and exfoliate your pet's skin. Infusion Microbubble Therapy is especially helpful for pets who experience hot spots, itchy skin, dandruff, anxiety, and shedding/hair loss.

Infusion Microbubble Pet-Dog Spa by Ella's Bubbles- Chicago's best for human's best friend. Order the bathtub every pet is itching to get into. Visit our website or call (312) 666-3552 today!
