Detail of 1.0" Threshold

Barrier Free, Roll In Shower Features

STRENGTH

Wood & Steel Reinforced Walls

Twice the weight and twice the raw materials used in the construction of our showers than listed by any of our competitors.

Wood reinforced core walls and high density base. Metal conduit around perimeter of EACH panel for added strength.

ADAPTABILITY

Customized Accessory Placement

The wood reinforced core walls allow the fixtures to be installed right onto the wall studs by eliminating the need for a drywall backing.

SHOWER DOOR FRIENDLY

Your choice: Curtain or Door

Square corners in Ella shower construction allow for framed or frameless shower doors to be installed.

Image for illustration only

FRONT SIDE INSTALLATION

Aluminum Pin and Slot System for a contractor friendly front side installation.

An installation may be finished in a fraction of the time. No more need to get behind the panels to bolt large panels together.

AVAILABILITY

Your Project won't be held up

Ella showers are manufactured, inspected and shipped directly from the factory within 5 - 7 business days.

Rush orders are available upon request (white only).

No order is too big or small.
